WELCOME TO HEZICOM GLOBAL SERVICES LTD

- Hezicom Global Services Limited (HGSL) is a wholly owned indigenous Company providing innovative high tech and engineering services to a wide range of clients from industrial, commercial, and home automation.
- At HGSL, we work with selected clients to deliver turnkey services in Engineering, Procurement, Construction and Installation(EPCI) Projects in Industrial and Domestic Electrical systems, CCTVs, Access control and Securities Systems, Portable and Mini grid solar system, technical support, maintenance and operation, facility management and consultancy. With one phone call or e-mail, you can access our unrivalled services.
- From feasibility to front end design; Procurement, Construction, Installation and Commissioning, we work as the main contractor or in a joint venture to fulfill our clients objectives in line with local regulations, quality, safety, health and the protection of the environment in which we operate.

OUR VISION:

To be the foremost Integrated Power and Security (P&S) Technology Solutions provider in emerging markets.

OUR MISSION:

To commit to excellent, standard and swift service delivery to bet our client's satisfaction within company's safety provisions.

Motto:

Designing the needed solution.

OUR CORPORATE VALUES:

Safety

HGSL is committed to enforcing the right HSE MS (Management system) to ensure the overall protection of human, equipments and construction environment. And to minimize unavoidable risk to as low as reasonably practiceable. We achieve this by ensuring every habnd is on deck.

Integrity

Customers, contractors, vendors, and suppliers will be able to count on HGSL management and personnel to deal honestly and adhere to the strictest moral and ethical codes of business conduct.

Quality

Customers and clients will be able to count on HGSL execution and workmanship to be among the highest in the industry.

Dependability

Clients, vendors, and suppliers will be able to count on HGSL management and personnel to be reliable and trustworthy at every exchange.

Community

HGSL commitment to the communities where we

work and live will not waiver. We will continue to give back where needs are the greatest and where our convictions dictate, both corporately and personally.

Customer Service

HGSL is committed to total customer satisfaction. We pledge to meet or exceed customer expectations on every project.

Leadership & Innovation

HGSL can be relied on to be a step ahead in the industry in applying the latest proven technologies on their projects.

Versatility & Adaptability

We will continue expanding our expertise and resources across all disciplines of electrical/automation, management and consultancy. We will make inroads into new and emerging markets and not shy away from that which is unique and challenging. We guarantee responsiveness and adaptability to change.

People

At HGSL, we believe that the ultimate success of any project hinges primarily on the quality of the people involved. We have therefore made

INDUSTRIES WE SERVE

Process Industries/
Warehouses

Malls & Multiplex Stadium
Sports Complex

Community & Large
Residential Complex

Govt. Buildings &
Universities

Airports/Seaports/
Railway/Bus Terminals

SERVICES WE OFFER

HOME AND INDUSTRIAL ELECTRICAL

- Electrical system Installation and wiring.
- Low and High Voltage Industrial Panel Design and Installation.
- Industrial Earthing and cable laying.
- Switch gears and system automation.

SECURITY SYSTEM INSTALLATION

- Access Control System Installation and Mgt (Home and commercial).
- Cctv And IP Camera Installation.
- Smart home design and automation.
- Intruder Detection System.
- Fire Prevention device installation.

SOLAR POWER AND OFF GRID SYSTEM

- Installation of solar street lights
- Scalable home solar & inverter systems.
- Commercial and off grid solar installation and energy management.

Typical Power Flow in Solar Hybrid Solutions

SPECIFICATION

		100KVA	150KVA	250KVA	500KVA
INVERTER	Model Number	SG-VW100	SG-SCU150	SG-SCU250	SG-VW500
	Nominal Load Power	100KVA	150KVA	250KVA	500KVA
BATTERY	Max PV Array power	120KWp	183.12KWp	305.2KWp	600KWp
	Nominal Output voltage	3X400/230V	3X400/230V	3X400/230V	3X400/230V
	Inverter Efficiency	95%	95%	95%	95%
PV Panel	Battery type	LiFePo4	LiFePo4	LiFePo4	LiFePo4
	Nominal Battery Capacity	215KWh	408.5KWh	817KWh	1075KWh
	DC Operating Voltage Range VDC	672-862V	729.6V	729.6V	600-876V
	Maintenance	Maintenance Free	Maintenance Free	Maintenance Free	Maintenance Free
	Cycle life (Nos)	6000	6000	6000	6000
PV Panel	Depth of Discharge	80%	80%	80%	80%
	Type of Panel	Mono	Monocrystalline	Monocrystalline	Monocrystalline
	IP Rating	(475-650Wp)	(475-650Wp)	(475-650Wp)	(475-650Wp)
	Max DC Voltage	IP 68	IP 68	IP 68	IP 68
	Efficiency	1500VDC	1500VDC	1500VDC	1500VDC
PV Panel		22.40%	22.40%	22.40%	22.40%

Hybrid & Sustainable

- Seamless transfer between solar, grid & BESS for On-grid/Off-grid Operations
- Intelligent solution for high energy industries & communities
- Minimal maintenance, maximised power & value over its lifetime
- Reduced energy costs. Reduced carbon footprint

Bankable & Resilient

- Long-lasting, high-performance operation
- Produce & store energy on-site, safely & reliably
- Increased uptime of production & critical infrastructure
- Weatherproof outdoor ready solutions
- Freedom from gas & diesel generators

Flexible & Scalable

- Advanced flexibility to deliver unique customised solutions
- Infinitely scalable, suitable for projects of various size & locations
- Complete solution for Commercial, Industrial, IPP & utility scale use case

Intelligence Integrated

- Pre assembled, self contained & ready to operate
- Quick installation timelines & reduced complexity
- Greater control through advanced EMS
- Optimum maintenance through remote diagnostics via IoT based system

Energy Audit & Consulting

- Inspection, survey & analysis for complete energy assessment
- Recommendations of energy efficiency improvements
- System modelling for maximisation of ROI
- Turn key delivery model, long term maintenance & support

Hezicom Global Services Limited offers a scalable mini-grid solar system that is compactly designed and pre-assembled in shipping containers for easy deployment. These systems are equipped with advanced metering technology to provide clients with transparent monitoring and billing of their electricity consumption. The containerized setup ensures quick installation, minimal on-site construction, and seamless scalability to meet varying energy demands. This solution is ideal for rural electrification, industrial applications, and commercial establishments seeking reliable, cost-effective, and sustainable energy alternatives.

DIRECTORS

CEO

ENGR. HENRY ONUOHA N. (HND. B.ENG. MNSE. OSHA)

A skilled Electrical and Instrument (E&I) Engineer. With over twelve years of seasoned field experience, he has developed in-depth sense on Electrical, Instrument, industrial and home automation. From feasibility to front end design, procurement, construction, installation and commissioning he has delivered turnkey projects ranging from: solar power to emerging security tech system installations. Once an Electrical Supervisor at Sterling and Wilson Engineering Limited, project manager/HSE officer with Barodec Ltd, Site Engineer with Romax properties Ltd. The knowledge from the positions on various projects has granted him the experience in project management, industrial policy standard, Occupational HSE and work ethics.

AUTOMATION ENGINEER

ENGR. EGWU JOSEPH NNANNA (B.ENG)

A versatile home automation professional with customization, and innovative problem-solving expertise. Skilled in robotics, graphic design, programming, and brand development, A proven ability to deliver creative solutions that meet client goals. Effective project management from concept to completion.

PROJECT MANAGER

CHIDOZIE NELSON OKOYE (B.SC., M.SC. ARCH, HSE 1,2,3)

Experienced and dedicated Project Architect with a strong background in overseeing building projects from conception to project delivery. Skilled Project Supervisor with 8+ years of proven track record of successfully managing teams and meeting Project deadlines. Team Lead with a passion for building designs through realization and a commitment to high quality result deliverables.

FACILITY DIRECTOR:

ALICHI ROSE (HND, BSC, ACA, MSc in view)

Is a chartered Accountant. Who is skilled in her career and great knowledge in accounting softwares, online arbitrage. She has experience in banking, marketing units and in Agricultural industry. Also a researcher and an investor

KEY PERSONNEL

Moses Eje

Facility Technician
Diploma (City and Guilds)

Engr. Jesse Elendu.

Civil Engineer
(FUTO)

Azuh, Reuben Chukwude

(System Engr.)
System Security Technologist

SOME CONSTRUCTION PROJECT

Ever Care Hospital – Lekki

Admiralty Road Lekki, Lagos
Main Contractor: Sterling & Wilson Engr. Ltd.

Romax Properties Ltd.

Address: Harris Drive by VGC – Lagos

Flower Shop and Restaurant

Address: Akin Adesola Street, VI - Lagos
Main Contractor: UICL

Kilimanjaro Restaurant

Address: Km 48, Lekki – Epe Expressway
Sangotedo – Lagos

CONSTRUCTION OF NLNG OFFICE COMPLEX Port-harcourt
External and internal electrical wiring and installations. Main contractor: Bouygues construction Nig. Ltd.

COMMERCIAL INSTALLATION

250kw Off-grid Solar Installation at Ogbembiri, Delta State, Nigeria

Evercare hospital lekki
Electrical wiring, installations and terminations.BMS automation, UPS installation etc

HEZICOM
GLOBAL SERVICES LTD

Kilimanjaro Restaurant, Sangotedo Office:
Electrical wiring, lighting and power equipment installation (subcontractor)

NLNG OFFICE COMPLEX - PORT HARCOURT :
-Electrical piping and wiring, hear switch installation and terminations,HV cable laying and earthing.

LUCKY HOMES, Chevron Conservation Route
Wiring, Installation CCTV and Intercom System.

Installation of 80kva, 72KW(PV), 180KWh(BESS) at Okomo Community, Edo State, Nigeria
